

Voltmeter 24 V Gauge	IPVR-24	CE
	art.no: 110040	Revision: 1998-5-20

**Technical data:**

Supply:	24V DC
Consumption:	70-130 mA
Background light:	Yellow
Waterproof:	IP56

Cable connections (see drawing):

<table> <tr> <td>cable no. 1: red/white</td> <td>instr. light</td> </tr> <tr> <td>cable no. 2: red</td> <td>pos. power</td> </tr> <tr> <td>cable no. 3: blue</td> <td>neg. power</td> </tr> </table>	cable no. 1: red/white	instr. light	cable no. 2: red	pos. power	cable no. 3: blue	neg. power
cable no. 1: red/white	instr. light					
cable no. 2: red	pos. power					
cable no. 3: blue	neg. power					

Accessories /options:

Not Available

Description:

This gauge can be connected, as shown on drawing, to any 24V battery. The movement is damped and there will be a slight delay for the needle to adjust to correct position.
